

COURSE CURRENCY STATUS: Current

COURSE DESCRIPTION

This qualification reflects the role of individuals who...
recreation facilities. These individuals are competent...
in a range of activities and functions requiring...
autonomous work within a defined range of situations
and activities

DURATION

This full course runs over approximately an 8 - 10 week
period, with students completing the required units of
competency to complete the skill set and a period for...
re-submitting any outstanding assessments at the
end of the course.

COURSE DEMANDS

Face to face classes are offered to students.

This time frame includes all learning and assessment
activities. It is anticipated the course length will be
adjusted to cater for individual student's
requirements. The recommended/ scheduled dates
for face to face training, both learning and assessment
and subsequently assessment can and will be
adjusted to satisfy student requirements.

COURSE DELIVERY

A blended delivery mode is employed including a
simulated environment and face to face training that
will take place in Southern Education's training facility.
Students will also be supported outside of face to face
classes through e-mail, telephone, zoom and any
other processes employed by Southern Education to
assist students.

Face to face training classes will consist of groups up
to a maximum 24 students. It is however anticipated
that on a course class size will consist of approximately
16 students in attendance at any one time.

Online learning material for the course will be
provided to the student. Students will read relevant

material and provide written responses to questions
relating to the training material.

Students may contact their trainer for support/
assistance outside of scheduled face to face contact.

The following techniques are employed during face to
face training and delivery:

- Trainer presentations and demonstrations
- Videos
- Individual tasks
- Group tasks
- Research
- Role plays
- Practical demonstrations
- Group work

Assessment will take place at Southern Education's
facility.

Assessment is the delivery of a combination of
tests and practical activities depending upon the
environments will be created during assessment
tasks to create as close to real life situations as
possible.

Student's competency against the unit of
competency specifications are assessed throughout
the course. Students are provided with opportunities
for re-competency during assessment tasks.

Students will be informed of assessment processes
and methodologies pre-enrolment and at orientation.
Assessment instruments, assessors will discuss methods
with each student prior to them attempting each
